

HOTEL SPERO

THE SUSTAINIBILITY EFFORTS OF HOTEL SPERO TEAM:

1. 'Make a Green Choice' program – receive a \$5.00 voucher to our restaurant, Jasper's Corner Tap & Kitchen, each day you decline housekeeping service.
 2. We offer water filling stations in the public areas of the hotel to provide convenience and minimize plastic bottle waste in the environment.
 3. We achieve a 75% waste diversion through recycling and composting programs.
 4. We utilize the Tersano Cleaning product – we call it magic water! Converting from traditional general purpose chemical cleaners to Stabilized Aqueous Ozone (SAO) keeps millions of litres of toxic chemicals from being emptied into landfill, ground water, streams and rivers each month.
 5. We recycle our soap via Clean The World. <https://cleantheworld.org>
 6. We offer BeeKind Products in our guestrooms: The products contain no parabens, phthalates, petrol-derived ingredients, mineral oil, urea, DES, TEA or propylene glycol. The BeeKind formulations are also free to any artificial colors or dyes. Along with recyclable packaging and skin-friendly formulas, the company supports honey bee and sustainable pollination research at UC Davis Entomology Department by donating to the University's Honey Bee Research Program.
 7. We offer low flow toilets, low flow faucets, and low flow showerheads. With these efforts, we save 1.1 million gallons of water per year!
 8. We utilize power-saving LED bulbs in Hotel Spero.
